Document no./date
Q-000151613 / 11/9/2026

Validity: This quotation is valid until 1/8/2027.

Payment terms: Cash on Delivery.

Payments shall be made net and without any deductions of the invoiced amount.

Invoices are payable to "TUV SUD for Safety Engineering". Please refer to the bank details at the footer of this page and indicate quotation reference number and/or invoice reference number in the payment.

Terms & Conditions: TÜV SÜD Middle East L.L.C. Standard Terms and Conditions given in Annex 2 will prevail for the durations of the services.

A copy of Purchase order/LPO shall be sent to TÜV SÜD, once you intend to commence the job.

All the above prices are only valid in Al Khobar, Dammam & Jubail cities, in addition, there would be extra traveling charges if it were outside the mentioned cities and did not state on this quotation.

Additional charge of SAR 500/- per day if done on a Friday or holiday. In working days, 20% of job value will be charged extra, for all inspections after 5PM, as Overtime.

Re-inspection (for equipment which due to technical reasons could not be certified at the first inspection) will be charged as per the agreed price.

Minimum cost of SAR 800/- shall be charged if our inspection engineer reported at site & the job gets cancelled/held up due to circumstances caused by the Customer.

Any major repair after TUV inspection, the equipment's certificate will not be valid anymore and need to be re-inspected.

All TUV technical training will be delivered in ENGLISH language and if required translation, the Customer should facilitate the same along with training materials for the candidates at their facility.

The order shall be placed in writing (also possible by email), shall be binding and shall reference this quotation. TÜV SÜD will not perform any activities or make any preparations prior to receipt of the order.

The quotation is a package quotation. Individual services from the main items of this quotation cannot be ordered separately.

TUV SUD for Safety Engineering

Quotation: Q-000151613

Fixing Maintenance and Remove painting from welded parts are not part of our services.

Client must arrange site access/gate pass, hot/cold permits, and scaffold when it is required.

Calibrated test weights and suitable crane for load test provide by client.

The client must provide a technician during the visit.

The equipment owner shall bear sole responsibility for completing the Operator registration process and submitting all required information through the Heavy Equipment Regulatory Center portal. Any delay, inability to obtain approvals, or failure to fulfill applicable regulatory requirements arising from incomplete, inaccurate, or delayed registration or submission of information shall be the sole responsibility of the equipment owner. The service provider shall not be liable for any resulting delays, penalties, losses, or regulatory consequences.

.
